A Groovy Look at Tie-Dye

It's a fun craft with a history as an art form and a symbol of self-expression. Tie-dye's bright colors and intricate patterns remain an enduring fashion.

Tie-dye is a form of resist dyeing, an age-old technique used by cultures all over the world, from South America to Africa to Asia. The method involves tying or sewing together sections of fabric, so that they will be blocked when dipped into dye. When the fabric is untied, it reveals a pattern, created by the bound sections that "resisted" the dye.

In the U.S., tie-dye first emerged in the 1920s and gained popularity as a thrifty way to design home décor and clothing during the Depression. But the craft really blossomed during the cultural revolution of the 1960s. Since no two hand-dyed garments were alike, wearing tie-dye was a way to express individualism and creativity. The groovy designs and rainbow hues became a symbol of peace and love.

An easy and inexpensive craft project, tie-dyeing T-shirts and other textiles is a popular activity for all ages.

Brain Bender: At the Beach

Leo, Sabrina and Vicky went to the beach. Each of them saw a sea creature—starfish, crab and jellyfish—and enjoyed a treat from the concession stand—ice cream, snow cone and hot dog. They also met new friends by joining in an activity—Frisbee, volleyball and flying a kite.

Using the clues, can you figure out how each person spent the day?

- Sabrina did not play volleyball, see a crab, or eat a snow cone.
- The person who flew a kite also saw a jellyfish.
- Leo did not fly a kite, but he did eat a hot dog.
- Vicky either saw a jellyfish or ate ice cream.

Remembering V-J Day

The happy news came on Aug. 14, 1945. Calling it “the day we have been waiting for since Pearl Harbor,” U.S. President Harry S. Truman announced to crowds gathered outside the White House that Japan had surrendered unconditionally to the Allies. World War II was finally over.

Three months earlier, fighting had ended in Europe with Germany’s surrender. Now relief and jubilation erupted at word that the battle in the Pacific had been won. In the U.S., millions of people flooded city streets to hold impromptu parades, complete with marching bands, confetti and fireworks.

In New York City’s Times Square, sailors climbed lampposts and waved American flags, while strangers cheered and embraced. One celebratory moment, of a sailor excitedly kissing a woman in a white dress, was captured by photographer Alfred Eisenstaedt and printed a week later in Life magazine. The iconic image is an enduring symbol of Victory Over Japan Day, or V-J Day.

Allied nations also broke out in festivities, which continued through Aug. 15, the date the United Kingdom declared as V-J Day. Japan’s formal surrender took place a few weeks later on Sept. 2.

At the Beach

The combination of sand and surf creates scenic coastlines across the world. Relax, unwind and find out what makes some beaches fascinating and fantastic.

- Beaches became popular destinations during the 1700s. Doctors often prescribed a visit to the seashore to improve a person’s health.
- Most beach sand is tan or white in color, but there are beaches with sand that’s black, green, pink, purple and red.
- Brazil is home to the world’s longest beach, Casino Beach, which stretches 150 miles long.
- You’ll find the “shark tooth capital of the world” at Venice Beach in Florida. Every year, hundreds of fossilized teeth from prehistoric sharks wash ashore there.
- At 58 feet high, the world’s tallest sandcastle was built on a German beach in 2019.
- Tides have turned California’s Glass Beach from trash to treasure. Its shore is covered with polished pebbles of colorful sea glass, made from garbage tossed into the ocean long ago.
- A day at the beach or the spa? You can have both at New Zealand’s Hot Water Beach, where the water underneath the beach heats up to 150 degrees. Beachgoers dig holes in the sand to soak in their own hot tubs.
